

ABOUT HERMES HEALTHCARE

Hermes Healthcare, Inc., Wichita, Kansas, is a professional medical practice comprised of a nurse practitioner, operating independently with a collaborating physician. We have more than 10 years of primary and specialized foot care experience, and we're trusted by local doctors who offer referrals to our facility.

Jayne Hermes, owner and nurse practitioner, received a Bachelor of Science in Nursing from Wichita State University in 1983, and a Master of Science in Nursing from Wichita State University in 2006. Her extensive professional nursing experience includes employment at Harris Health Care, Internal Medicine South, Health Ministries of Newton, Clinical Research Institute, Via Christi Regional Medical Center, and Wesley Medical Center. Jayne has practiced primary care and specialized foot care since 2006, opening her own clinic in 2015, which serves Greater Wichita and Central Kansas.

Hermes Healthcare aims to provide prompt, professional, and affordable medical care. Our staff of nurses is committed to compassionate, personal attention to improve the quality of our patients' well-being. Because strong, healthy feet are key to a full and active life, we're passionate about providing our patients with the information, tools, and treatment to prevent foot complications related to systemic conditions such as diabetes and peripheral vascular disease. Our foot care services include trimming and cleaning nails, reducing calluses, removing ingrown toenails, nail removal, freezing plantar warts, and certain types of wound care.

We accept most insurances, and we offer easy payment plans to ensure that our patients have access to the care they need, when they need it. For more information regarding scheduling a foot care clinic, please contact Marci Bacon, office manager, 316.260.4110.
